One reason why it is so difficult to please a woman is, that she seldom knows herself what she wants. In most cases it s hard to satisfy a woman as it would be to content a captain who should set you to steer a ship, and wouldn't tell you whether he wanted you to go to Jersey or Japan. They won'l be satisfied, whatever

Then, if your regiment is ordered away, and you instructe that "business affairs" will keep you at home, all har fire is blazing in an instant, and she upbraids you for " backing out " at the critical moment, and insinuates that you are a "play-boy soldier ;" aud then she wishes she "were a man-she would show folks how to fight." Then when you finally make up your mind to go to the seat of war, she bursts into wet tears, (which spots your new uniform and tarnishes the gold lace on your sleeves.) and thinks you ought to Is "ashamed to go off and leave your family." She rows she "dou't believe you care a straw for your wife, or a cent for your shildran i i she knows you would rather be anywhere then at home," and "wishes she were a man, she'd teach the president better than to send men away from their familica."

And then when you tell her it's all a mistake, and that you are going after all, she howle louder than ever, because she "knows that you'll be killed," or she feels it in her hones that you'll come home with two wooden legs, and then how can you take her to the academy on opera nights? Then she resorts in turn to every one of the immense lists of female tactics to keep you at home -the weeps, she banters, she pokes for at you-she "wishes she was a mon"-the gets mad-she sulks-she threatens to go home to her mother-she coares-she won't live with you another day"-- she A CHALLENGE AND A REWARD scolds-she entreals-and, as a lost resort, she faints-in this case she always folks in-I BEG LEAVE to inform my friends and the community, that from recent arrangements made by me. TO THE PATRIOTIC

CITIZENS OF NEWPORT.

In the present condition of our National affairs the importance of having as many men as possible instructed in the duries of a soldier cannot be over-eatimated, and, in our State especially, where the exposed position of the Onast in case of War with a "oreign Power," renders it imperatively recessary that we be prepared for defense. Six Companies, comprising over three hundred men, have been formed by this Association, as he with a reapidly advancing in drill and discipline, but the expenses, of course, amount to a considerable sum, and the finals cultered at the outset being about exhausted, we cannot, without the financial assistance of our fellow citizens, continue in what we consider to be a good work. We therefore appeal to the particulation of the citizens, of New port to render us substantial aid, sufficient to enable us to carry out the objects of the organization, assuring them that we shall to the best of our shifty, make all expenditures in John Inake Powerld.

PROV. WOOD'S RESIDEATIVE CONDIAL.—It is recorded in the Classics that. Pysche was once sent to a climate warmer than the West Indies, to procure a sample of the beauty of Prosperine in a box.
